

AN IDEAL SUMMER RESORT IN KANSAS.

Manhattan Beach and Eureka Lake.

\$1.75 for the Round Trip from Topeka.

Five miles west of Manhattan and only one and a half hours ride on the Union Pacific and you arrive at Eureka Lake or Manhattan Beach, one of the prettiest and coolest summer retreats in the United States. Mr. C. P. Dewey, the genial proprietor, whose home is in Chicago, has had property interests in Kansas for the past twenty years, and especially in Manhattan, Kan. While in Manhattan two years ago he became impressed with the lake and with the beautiful landscape surrounding it. The idea came to him that it was an ideal spot, to build a modern home where he could spend a quiet, pleasant time and entertain his personal friends. He built a handsome three story palatial residence, consisting of sixteen sleeping rooms, a large dining room, kitchen and billiard room. Last year many of his friends came and visited. They had such a good time, they told their friends about it, and Mr. Dewey was besieged by people who wished to visit Eureka Lake; rooms were engaged two weeks in advance and many were turned away. Mr. Dewey was in a dilemma as to what to do this year; he had made up his mind he would either have to close the place to the public or

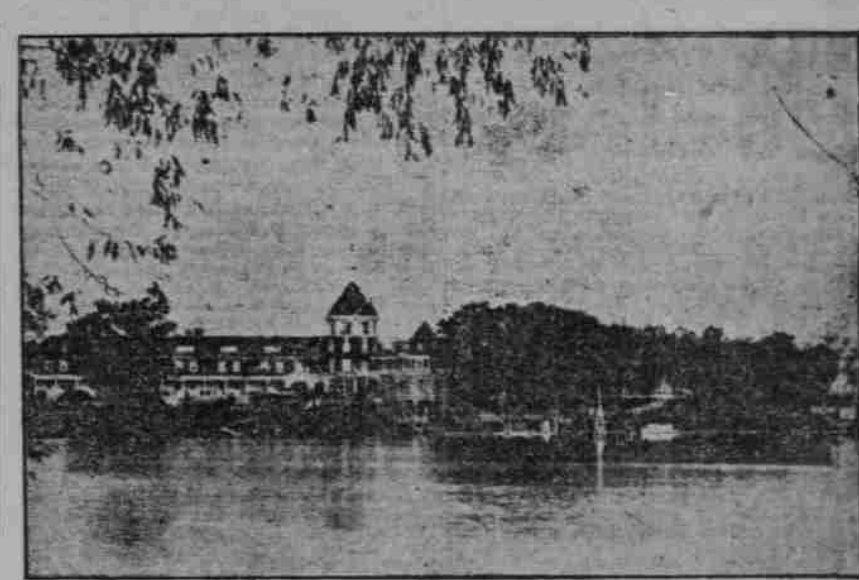

make it larger. The idea occurred to him to increase the capacity and make it more beautiful, or in other words make a place that people from Kansas could go for a moderate sum, spend their vacation and enjoy the lake breezes, fishing, boating, bowling and dancing with less cost than the railroad fare would be to Colorado or other summer resorts. In October of last year he employed the services of one of Chicago's foremost architects to make plans for the enlargement of the residence, to what is now one of the handsomest summer hotels of any of the summer resorts. The new part or annex is 160 feet long and forty feet wide and is two full stories with a mansard story above, a large hall which runs the full length. On each side are large sleeping rooms all fitted up with hand-some rugs, curtains, dressers, iron beds and bed room furniture. A number of the rooms are extra large and contain from two to four beds especially designed to accommodate house parties or families desiring to be together. The annex also contains the office, the music room with piano, phonola music boxes and gramophones. In the second

story above the office is the pool room. A large airy room has been fitted up with a ping pong set and games especially for children. A veranda, running the full length of the building and around the dining room, is an ideal lounging place.

Here are the latest improved Davenport swings, rockers and easy chairs. Mr. Dewey has spared no pains or expense for the accommodation of his guests. A large bowling alley, dancing pavilion, toboggan slide, bathing, high

trance to the lawn is built of stone and resembles a fort. It is called the porter's lodge. A State Journal representative recently visited this ideal summer resort for Kansas, and the common expression of all the guests as they drove up to the hotel and all during their stay was, "I never dreamed of anything like this in Kansas, and so near to Topeka. And to think that you get it all for \$10 a week or \$2 a day. I don't see how Mr. Dewey can do it." And now for the table, no better bill of fare is

usually allow a period of twenty-one days to ascertain if the patient will die, and then take three to six weeks longer to get the patient out. When Mr. Dewey arrived at Chicago he found his manager under the care of a physician of whom he had never before heard, who went on the theory that physiological chemistry and not materia medica was the secret of the cure of the diseases of men. The young physician had Mr. Dewey's manager back at his office in fourteen days after he first took sick.

EUREKA LAKE HOTEL AND MANHATTAN BEACH.

first class sanitarium along sanitary lines. A car load of electrical apparatus arrived there last week. It is not Mr. Dewey's intention to turn his establishment into a hospital, but to have things so that convalescents can come there and besides having the needed rest can place themselves under the care of a competent physician. Dr. Norris will treat all forms of disease, excepting cancer and tuberculosis.

Where could you find in Colorado, California, Michigan, Wisconsin or Maine so much for the price as at Manhattan Beach and this right at your door. It is reached from Topeka in the easiest way possible. One can leave North Topeka on the Union Pacific at 6:25 p. m., arriving at Eureka Lake at 8 o'clock, or you can leave here at 10 o'clock in the morning and reach the hotel in ample time for luncheon. Returning you leave Eureka Lake at 6:20 a. m. and 7:45 p. m., arriving at Topeka at 8 a. m. and 6 p. m. With such train service one may go out Saturday evening after business hours and return Monday morning in ample time to begin the week's work. If you want to stay a week you have direct telephone connection with Topeka, and all neighboring towns by means of the long distance telephone right in the hotel. During the season the Union Pacific makes a round trip rate from Topeka of \$1.75 and uniformly low rates from all towns and cities along its line.

THE TOBOGGAN SLIDE.

BOATING ON THE LAKE.

APPROACH TO EUREKA LAKE HOTEL.

drive, Shetland ponies, boats and gasoline launches are some of the attractions. These are all absolutely free and are at the disposal of the guests at any and all times, or in the words of Mr. Dewey himself, "I want people when they come here to enjoy themselves, and be free and easy. You don't have to dress like you would for any of the swell functions. I like to enjoy myself and I like to see others enjoy themselves."

The hotel is an imposing sight when one gets off the train and sees the thousand different colored electric lights which run along the veranda and to the very top of the building. The en-

tered at the four-dollar-a-day hotels than will be placed before you at Eureka Lake. Everything in season, prepared by one of the best chefs, Mr. Dewey is very particular in regard to the help he employs, and he sees to it personally that his guests receive every care and attention.

A feature of Eureka Lake this season will be the private sanitarium. Mr. Dewey conceived the idea a few months ago while in Chicago where he had been called by the sickness of his Eastern manager, who was suffering with typhoid pneumonia. It is a well known fact that in a majority of cases doctors

At the same time the doctor was treating three children for black diphtheria and he effected a cure in each case in a remarkably short space of time. Mr. Dewey then placed himself under his care and he was so improved in a few days that he wanted to continue the treatment. He prevailed upon the doctor to come to Kansas and establish a sanitarium, and people visiting Eureka Lake this season will be able to consult Dr. H. C. R. Norris, the eminent Chicago physician. Mr. Dewey never does things by halves and after completing arrangements with Dr. Norris to come to Eureka Lake he had him go east and get all the latest appliances to fit up a

SNAPSHOTS AT HOME NEWS.

When you've got a little money
That you think you will invest,
And a business friend tells you
That a certain stock's the best,
And you notice by the paper
That it's rising every day—
But you hardly think your money
Yaw right out your nose!

When a friend quite confidently
Tells you that his horse will win,
And he swears no other equine
Is to beat him coming in,
Why, you think you'll make a fortune
And on him your coin you lay,
But the race when it is over
Yaw right out your nose!

When you hear your uncle's ill you
Quickly to his bedside go,
For you know that by his will you
Will receive a thousand or so,
And you're waiting every minute
For to see him pass away,
When he makes a desperate effort
Yaw right out your nose!

So it is all through a lifetime,
First we're up and then we're down;
Just as soon as we are smiling
Something comes to make us frown,
And as soon as we are certain
That the sunshine's here to stay,
And we're feeling blithe and happy—
Yaw right out your nose!

—R. P. Pitzer.

W. J. Black was in Kansas City Tuesday.

W. M. Gregory went to Kansas City Tuesday.

Frank Grimes will join his family at Eureka Lake Thursday.

Mayor Berghand has moved back to his home at 1124 North Jackson street.

Mr. and Mrs. C. L. Corrico are the guests of L. M. Brandow on Lincoln street.

Dr. L. M. Brock and family of El Paso, Texas, are at the National for a few days.

Sorrentino and the Banda Rossa went from Topeka to Ottawa where they will give a concert tonight and will visit Coffeyville, Chanute and

Iola before going to St. Joe for a series of concerts.

There is a notable display of phlox at the Morehouse residence on West Tenth avenue.

E. C. Fox, Dean R. Low and C. P. Thomas were among the Topeka visitors to Kansas City Tuesday.

There are three little girls ready for adoption at the orphan's home, two three years old and the other two.

The Y. M. C. A. baseball team has arranged a game with Silver Lake next Saturday. The game will be played there.

Eugene Smythe has accompanied Prof. F. H. Snow of the State university upon an insect collecting expedition to Arizona.

Police Officer McIntosh has resigned from the police department, his resignation going into effect immediately. He will go to California.

Bishop Frank R. Mullenpaugh conducted the ceremony of laying the cornerstone of a new Episcopal church at Fort Scott Sunday night.

H. M. Balch is now the secretary of the Butler County Fair association, according to reports received by Secretary Cohn.

There were fully half as many people who heard the Red Band from the article of the Auditorium Monday and Tuesday nights as there were inside.

Councilman Luther M. Nellis has returned from New York where he says they sell a cold bottle of beer for 15 cents and a glass of lemonade or an ice cream soda for 25.

Orin Layton, a special delivery clerk at the postoffice, was overcome by the heat Tuesday night after returning from delivering a letter. He was exhausted by riding his bicycle.

A Topeka girl who went to Eureka Lake for a few days "rest" estimates that she had five and a half hours sleep in three days. She rested by having a good time and is ready to go again.

A Topeka girl who recently spent several days at Eureka Lake rode 23 miles on a pony and came home with a case of sunburn that you could never

tell from the kind you get in six weeks at the sea shore.

A red enameled Wolf-American bicycle belonging to P. A. Lovell of the State Journal was taken from in front of the Journal office Tuesday afternoon. Information as to the whereabouts of the bicycle will be appreciated.

Complaints have been filed with the board of railroad commissioners against the Rock Island by Lynn Frazier of Fowler, Kan. The complainant alleges that the Rock Island refused to deliver a car of lumber to the proper position for unloading.

Mrs. Adelle Jewell Newton and Miss They Jewell, who have been visiting their mother, Mrs. Byron Jewell, will return Sunday east to Sandusky, Ohio, where they will join the Empire Concrete company which will shortly commence its season there.

Secretary C. H. Samson, of the State Fair company, has secured several tents for use in the fair grounds during the fair. One is 100 by 200 feet and will be used for exhibiting stock. The other tents, 150 by 100 feet, will be used for agricultural and dairy products.

A youngster who lives on Monroe street came out of his yard the other day carrying something very carefully in a tin can. "I've got something better than toads," just as if there could be anything better than toads! he shouted to a boy who lives in the next block. He had a crawfish.

State Auditor Wells has decided to hold up, pending examination a warrant for \$800 to pay the appraisers of school lands in Trego county. The job of appraiser of school lands is a soft snap. It pays \$2 a day, but the auditor thinks that 400 days which will be used for agricultural and dairy products.

The city may have to bear a considerable part of the expense of opening Morse street in North Topeka as the property owners in the district are unable to pay a large amount of tax on it. The street is to be opened largely for the accommodation of the Topeka Railway company which will lay a track there next year.

It was decided last night at a meeting of A. W. Smith, department commander of the G. A. R. and his assistants that the Rock Island is to be the official road of the G. A. R. to the national encampment at San Francisco. The Santa Fe will get its share, however. Last night's meeting was held at the state house.

While he was in Chicago, Victor Murdock looked up some of his old newspaper friends—he used to work on the Inter-Ocean in Chicago. "There are not many of the crowd I was with left in Chicago now," said Mr. Murdock. "They are mostly all in New York and London. The way Chicago newspaper men climb is a wonder." Mr. Murdock has not gone to London nor to New York, but he goes to congress. He is something of a climber himself.

People who had business with J. W. Thurston, cashier of the Bank of Topeka, did not find him at his desk Tuesday afternoon. Mr. Thurston had occasion to go to the bank's new office room in the basement. He had been talking with one of the employees about five minutes when it was discovered he was sitting on a sheet of sticky fly paper. Mr. Thurston retired by a rear door and was not at the bank again during the afternoon.

Via Chicago Great Western Railway

115 Kansas City to St. Paul and Minneapolis and return, \$19 to Duluth, Superior and Ashland, \$12 to Madison Lake, Waterville, Parkville and other Minnesota resorts. Tickets on sale daily to September 30th. Good to return October 31st. For further information apply to any Great Western agent or Geo. W. Lincoln, T. P. A., 7 West Ninth street, Kansas City.

AN "IN TOPEKA" STORY.

S. Patrick Made a Startling Discovery at a Local Hotel.

In the Christian Science Sentinel of July 4, was published the statement in a letter signed S. Patrick, Chicago, Ill., that the fireman at one of the Topeka hotels works for his board and whiskey. It doesn't seem probable that any of the local hostlers could afford to pay any such wages as that but the writer asserts that he had his information from the fireman himself, who is trying to be cured of the drinking habit by Christian Science. If the story is true this is undoubtedly the only man on record who ever deliberately went about it to have his salary reduced.

The letter says: "While at Topeka, Kan., last winter, the fireman of the hotel called me into the washroom one morning and said to me, 'I overheard you last night talking about Christian Science. Could it do anything for me? I was down very low with the drinking habit. I am working here for my board and whiskey; at one time, however, ago I had a fine position here in this city, and I was a money enough on drink to buy this hotel.'"

The author of the letter is believed to be the same man, a traveling salesman for a Chicago house, who lectured in Kansas City last winter and told the same story, naming a prominent Topeka hotel as the one where the man was employed.

BERRYTON GETS A DEPOT.

Missouri Pacific Ordered to Build a New Station.

The state board of railroad commissioners have ordered the Missouri Pacific to build a depot and locate a station at Berryton, in this county. This is the first time that Berryton has been making for the location of a depot there. The company has resisted the application because it already has a depot at Tevis, a short distance away. It is claimed, however, that practically all of the business which is handled at Tevis station comes from Berryton. For that reason the commissioners decided that Berryton must have a depot. The depot at Tevis will be maintained because the company made an agreement with the party through whose land the railroad runs that a station should be maintained there so long as the company claimed any right to the land. The company is allowed until November 1 to build the depot at Berryton.

Crushed in the Ice.

London, July 22.—The whaler Vega in which Nordenskjöld accomplished the northeast passage, is reported by Lloyd's to have been crushed in the ice and to have foundered in Melville bay May 31. After a difficult journey of 300 miles in open boats and across the ice the crew reached the nearest settlement and returned home. There were no casualties.

Death of W. G. Colwell.

Lawrence, Kan., July 22.—W. G. Colwell, 69 years old, a traveling man, died here of inflammation of the stomach. His home is in Lawrence. He leaves a widow, a son at Atchison and a daughter, Mrs. Clyde Miller, at Osage City, Kan.

He Began Life in a Dogout.

Abilene, Kan., July 22.—Joseph Attrip, a well to do farmer, died of heart failure on his farm south of town. He had lived on the same farm 35 years, beginning in a dogout and ending in a modern and attractive dwelling with a valuable farm.

"WHAT IS REAL SUCCESS."

Subject of an Address by Rev. Charles M. Sheldon.

Rev. Charles M. Sheldon made an address before the Dougherty Success club at its meeting Monday night on the subject, "What is Real Success?" The subject was a favorite one with Mr. Sheldon and he gave a good many of his own ideas upon the subject. Among other things, he said:

"People must take a real joy in their work. As a rule people ought to do the kind of work they like to do. Some tasks in every kind of work are unpleasant, but generally they ought to get some real joy out of their work. Men who drop the hammer without finishing to drive the nail when the whistle blows are not usually successful. He is not eager to work. You never saw a preacher go on a strike for an eight-hour day. He has an enthusiasm and joy in the work."

"To understand the needs of the people is one thing a person must be able to do to achieve success. There are hundreds of examples of this kind. Young lawyers and doctors and people in other professions who have a dress suit perhaps hanging in the closet and wait for a client. There is a tremendous amount of work of this kind for young people."

What has this man Folk of St. Louis who convicted all those hoodlums been doing all his life? He did not have more brains than other young lawyers. He simply said I am going to study the city and when the people elected him to an important office he was ready to step into it. Now he is spoken of as good presidential timber and he stands a good chance some day to have been one of the presidents."

THE COLD AIR SYSTEM.

How the Auditorium Was Made Comfortable for Concerts.

The Banda Rossa engagement proved that it is possible to attend a summer entertainment in the Auditorium in comfort. It is doubtful if there was any cooler place in Topeka Monday and Tuesday evenings, excepting the cold storage plants, than the Auditorium, and it is certain that the people who listened on the outside had the best of it only in the matter of price. Even in the balcony where the temperature was somewhat higher than in the parquette it was comfortably cool. All the warm spots in the house were marked off by red crosses on the charts and these seats were not sold. The small number in attendance at each concert made it possible for every one to get under or in the path of the breeze of an electric fan but even if the sale of seats had been large none need have suffered from heat. The arrangements for keeping the Auditorium cool were greatly superior to any that have been made for any previous summer entertainment in the city.

GAVE UP FOR A YEAR.

Expedition to Explore Blue Nile Abandons the Task.

Aden, Arabia, July 22.—Details of the failure of the expedition headed by W. N. MacMillan of St. Louis, (which was fitted out to explore the course of the Blue Nile with the view of ascertaining the feasibility of a trade route from Central Abyssinia to the Mediterranean) show that it started down the river in iron punts and that while passing the rapids between precipitous cliffs punctuated their total stores struck on the rocks and sank. The occupants swam ashore and the entire party camped ashore. A hurricane swept the gorge on the following night and further damaged the expedition, which returned by forced marches and abandoned its task for one year. Mr. MacMillan expects ultimate success.

Sale of Big Lyon County Farm.

Emporia, Kan., July 22.—The Gazette says: An order of sale has been made out in the district court for the sheriff sale of the Troutman farm in the north part of the county. This is another step in one of the biggest land cases ever tried in the county. The case was brought last summer and was settled by her last of court. It was brought by Mrs. Clara B. Behoteguy vs. her brother-in-law, J. W. Troutman, for the recovery of a lot of farming land in the north part of the county. The Troutman farm is one of the largest in the county and Mrs. Behoteguy got judgment for the recovery of \$14,921 on December 1, 1902. It is to recover this money that the land is ordered sold at sheriff's sale.

Warden Jewett at Atchison.

Warden Jewett of the Kansas penitentiary is here interviewing Superintendent Hills of the Soldiers' Orphan's home. In building the proposed road to the home, it is intended to use brick manufactured by convicts, and Mr. Jewett is here with reference to the matter. Mr. Jewett gets shale for the brick in the penitentiary coal shaft, at a depth of 116 feet from the surface. The shale bed is sixteen feet thick. He expressed interest in the Atchison coal shaft, and is coming up some day to look it over.

Western Postmasters.

Washington, July 22.—These postmasters have been appointed: Kansas—Weaver, Douglas county. William T. Eubanks, vice C. Saunders, removed.

Nebraska—Robert, Mayes county. Hermann Boehm, vice J. Weist, Jr., resigned.

Ten Deaths from Lockjaw.

Cleveland, July 22.—Ten deaths have resulted from lockjaw in this city since July 4. The latest victim is Joseph Stuzek. He died last night as a result of a slight wound from a toy pistol July 4.

FOUND ON STREET CARS.

Even Babies Are Forgotten and Left by Passengers.

The next time you lose an umbrella and want to replace it apply at the Jackson street city railway and pick one out to suit you from the collection of those that have been left on the street cars and taken to the office until called for. You will be asked a few questions about your umbrella, as to what car you left it on. You may find your missing property if you are prepared to give a good description.

In any case the umbrellas are there, from two or three to twenty, all the time. More umbrellas are left on the cars than anything else although parcels of all sorts and sizes from the shops, handkerchiefs, vests, gloves, pocketbooks and bags are frequently found. They are always taken to the car barns and in most cases they are later called for and identified by the owners.

"The strangest incident of the sort that I remember," said Superintendent Albert M. Patten in discussing the subject, "happened about four years ago. It occurred on a Santa Fe car. It came into the office one afternoon with a little baby wrapped up in a shawl. It had been left on his car and he had no idea of the identity of the mother. Of course we thought the baby had been abandoned but a few minutes later the telephone rang and a woman's voice in excited tones demanded information about her baby. She thought she had left it on the car. I told her, 'Yes, there was a baby there who had been found on the car and she wanted to know if it was all right and if the office was warm and said that it was comfortable she would just leave it there until she finished her shopping. She said if it cried they should just cosset and pet it and it would be all right.'"

Mr. Patten disclaimed any special talent or experience in the nurseries line and advised the woman to call for her baby promptly, but she said she thought it would be all right and it was two hours before she came after it.

The conductors are required to put a tag on every article found in their cars bearing the number of the car and the time of the trip before it is turned into the office.

"Sometimes," said Mr. Patten, "we find a drunk on a car when it is run in at night, but in that case we just telephone No. 48 and let them put a 'tag' on it down there at the police station."

Belle Waggoner's Picnic.

Atchison, Kan., July 22.—Belle Waggoner will give her annual picnic for the children next Saturday at Forest park. She will have had competition this year. The children who went down the river last evening on the steamboat, had the ride given them.

and a number of other men made up a purse and bought a bunch of bananas, five gallons of ice cream, two hundred sacks of pop corn, a lot of watermelon, a bucket of cream caramels, and hired an orchestra.

ALWAYS TIRED NEVER RESTED

To be tired out from hard work or bodily exercise is natural and rest is the remedy, but there is an exhaustion without physical exertion and a tired, never-rested feeling—a weariness without work that is unnatural and shows some serious disorder is threatening the health. One of the chief causes of that "Always-tired, never-rested condition" is impure blood and bad circulation. Unless the body is nourished with rich, pure blood there is lack of nervous force, the muscles become weak, the digestion impaired, and general disorder occurs throughout the system. Debility, insomnia, nervousness, indigestion, dyspepsia, loss of appetite, strength and energy, and the hundreds of little ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S. S. S., which contains the best ingredients for cleansing the blood and toning up the system. Its vegetable blood purifier and tonic combined, that enriches the blood, and through it the entire system is nourished and refreshing sleep comes to the tired, never-rested, body.

For over four years I suffered with general debility, causing a thorough breaking down of my system. My cousin, who had been benefited by S. S. S., told me about it. I tried it and it cured me. I heartily recommend S. S. S. to all who may feel the need of a thoroughly good blood tonic. Yours truly, MRS. JOSE A. BRITAIN.

44 W. Ninth St., Columbia, Tenn.

SSS all ailments we often have are due directly to a bad condition of the blood and circulation, and the quickest way to get rid of them is by purifying and building up the blood, and for this purpose no remedy equals S.
